CHAIN OF CUSTODY

MOULD ANALYSIS – SPORE TRAP ANALYSIS

Notes to the sampler

- 1- A fully filled out chain of custody form should accompany every set of samples brought in for analysis
- 2- Please ensure that all the samples you collect are labelled legibly
- 3- Kindly ensure that the cassettes are handled with care to prevent blown filters.
- 4- To ensure that the filter is not overcrowded, we recommend a maximum sampling volume of 150 Litres.
- 5- The lab stores all the samples and associated COCs for 1 month only.
- 6- The electronic certificates and associated worksheets are stored for 3 years only.

Date of submission		Date of sampling
