CHAIN OF CUSTODY

ASBESTOS ANALYSIS – FIBRE COUNT / AIR SAMPLES

Notes to the sampler

- 1- A fully filled out chain of custody form should accompany every set of samples brought in for analysis
- 2- Please ensure that all the samples you collect are labelled legibly
- 3- Kindly ensure that the cowl is handled with care to prevent blown filters.
- 4- Please ensure all the relevant details are furnished on the chain of custody, including contact details
- 5- The lab stores all the samples and associated COCs for 3 months only.
- 6- The electronic certificates and associated worksheets are stored for 3 years only.
